

CSCE 4013

Final Project

Purpose: Conduct Big Data Research

Due: 05/06

Points: 100

Submission:

1. Brainstorming a research problem
2. Determining at least 2 datasets for your experiments
3. Implementing at least 2 ML algorithms to analyze the selected dataset
4. Comprising the experimental results
5. Provide a written document for your report (3+ pages in IEEE double column format using Latex).

Requirement: Please submit both report and code.
